

SEX WITH F. A. HALL DESTROYED BY FIRE

Absence of Any Wind Saves Post Office; Restaurant to West Is Also Threatened

Special to The Tribune by R. A. Macleod
SEXSMITH, Wednesday, Dec. 7.—The U. F. A. Hall here, social centre and scene of many conventions for years, was totally destroyed by fire this evening.

The hall was rented for the day by the Poultry Pool and the men had gone to supper. On returning they found the hall full of smoke and in a few minutes the fire was well underway.

An alarm was immediately turned in and the fire department responded promptly, but despite heroic effort could make practically no impression on the flames and in one hour the building was in ruins.

It was thought for a time that the post office would also go and Postmaster Wilson made all preparation to move everything out.

Tim's restaurant on the west side also had a narrow escape.

The only thing that saved the post office was the fact that there was no wind.

The piano in the hall was saved, but it is understood that the majority of the turkeys were destroyed.

It is believed the fire was caused by a defective chimney.

The hall was partially covered by insurance.

Town Fathers Hear Report of School Board

The regular meeting of the town fathers, held on Monday evening last, proved a short session, principally routine business being passed upon.

A delegation from the school board, consisting of Secretary J. Smart and Dr. Little, reported to the council the result of a meeting which the board had with the teachers, at which reduction of salaries was taken up.

Mr. Smart, in his report, stated that the teachers were not satisfied with what reductions were to be made in the salaries of the town officials. He read a list of the salaries paid, which he said, were below that paid through out the province.

Mayor McMillan said that he could not see that the salaries paid to town officials had any bearing on the case, adding that the cases were not parallel.

Dr. Little, after observing that the board found the teachers very reasonable, pointed out that the teachers' contract ran until June and could not be broken until the teachers' contract was waived. He gave it as his opinion that it could be proven that sufficient taxes could be collected to reach an agreement with the teachers, the contracts notwithstanding.

As an alternative to cutting salaries, it was suggested at the meeting by the teachers that they be given twenty-five per cent of the salaries in order on the local stores.

The school board was complimented on the interest they were taking in town financing.

A motion was passed adopting the report as prepared as the one for 1933.

Accounts to the value of \$314.05 were passed for payment.

The following were present: Mayor McMillan, Councilors Pratt, Porteous, Spencer, Henning and Tooley.

Nice Finish and Balance Feature Male Voice Choir Concert

By Miss C. Wilson
The Male Voice choir under the able leadership of Mr. A. E. Galway, opened its series of winter concerts Sunday evening with a splendid program of sacred music.

A good crowd attended and everyone went away satisfied that the choir is better and stronger this winter than before.

From the first bars of the spirited opening chorus to the last notes of the closing selection, the singing was a finish that showed the result of general preparation and response and, and appreciative leadership.

The singing was marked by nice balance and smooth harmony, well controlled expression and ready response to the leader's hints.

Discrimination was shown in the selection of the choruses and solos. The spiritual songs were suitably interpreted by the singers, with the admirable support of the accompanist.

Mrs. Helman Miller, organist, in an atmosphere of reverence in keeping with the number.

It would be difficult to select any one number that surpassed the others presented by the choir. In the end, the choir sang "The Song of the Sea," Mr. Jack Marvin's singing of the solo was particularly well done.

The part was a difficult one and Mr. Marvin gave his best. The program was augmented by vocal and instrumental solos.

Mrs. Helman Miller played Chopin's Polonaise Impromptu with scintillating grace, and responded to a hearty encore.

The Rev. Nelson Chappel, in his solo, "The Psalmist," gave a vivid interpretation of the righteousnessness of the psalmist and the humble penitence of the penitential psalm.

Mr. A. B. Hedman, who is an appreciative addition to the program, played two violin solos: Selections from "Faust" and Gounod's "Ave Maria."

Mr. F. J. Lockyer, a silver-tongued trio of distinct ability, who have lately joined the choir, sang with perfect dexterity "I Will Marry Thee, My Friend" for an encore "Where'er You Walk."

In the interval between the two divisions the program was a picture reel, entitled "Strange As It May Be," was shown, through the kindness of Mr. Frank McMillan.

Mr. Galway acknowledged with thanks the hearty response to the program, and donated by the Grande Prairie Herald Printing Company.

The following is the personnel of the choir: W. H. Adams, J. W. Akin, F. W. Akin, B. W. Akin, Rev. N. Chappel, Rev. N. Chappel, J. Marvin, C. Spencer, A. Slater, W. Storm, Rev. E. W. Jackson, G. Westcott, F. J. Lockyer, C. Birch, R. H. Rivers, Geo. Vanderpool, J. Morrison, G. Grover, A. Thorpe, and A. E. Galway, director.

MONTHLY MEETING OF LADIES' AID
The regular monthly meeting of the Ladies' Aid will be held at the home of Mrs. J. H. Adams, Thursday, December 14, at 3 p.m.

Santa Claus to be at Capitol Sat., December 24
Reflecting the spirit of Christmas, the Capitol Theatre invites all the children of the district under the age of fifteen to the popular show on Saturday afternoon of Saturday, December 24, at 2:30. Santa Claus will be there in person and distribute presents to all the children.

The picture showing will be "The Big Broadcast." Price of admission to this show has been reduced for adults.

This is a Christmas present to the children by the Capitol Theatre and they want all children in town and district to attend if possible.

ELKS' RELIGIOUS DANCE
A dance will be held in the Elks' Hall on Wednesday, December 21. Proceeds for relief. Sponsored by Grande Prairie Elks.

Local Board of Trade Taking Up Matter of Barring Trelle From International Show
The hearing of Herman Trelle from the Chicago Fair for three years has been taken up by the local board of trade.

The majority taken to by the Tribune man feel that the Peace River especially will suffer by the ruling of the Chicago Fair local board.

Asked for a statement by The Tribune reporter, J. H. Hunter, president of the Grande Prairie Board of Trade, had the following to say: "The ruling of the Chicago authorities which bars Herman Trelle from exhibiting for three years. The decision means that the Wheat King for this period cannot be crowned again, but neither can he really lose the crown, since he is forced to retire undisturbed."

The reporter then interviewed L. C. Porteous, chairman of the agricultural committee, on the ruling of the Chicago Fair board. He had the following to say: "The members of the Board of Trade are unanimous in their opinion that Trelle should not be barred from the international, as the showing of the prize grain makes for better exhibits at the world's show. There is no money in this, but it is human for the grain growers to feel the same. This does not apply only to American exhibitors but to all exhibitors who do not own Peace River exhibitors who are lending their energies to win the crown."

Continuing, Mr. Porteous said: "Our board purpose going into the wheat matter with Mr. Trelle and the directors of the fair, but the whole matter cannot be worked out that would be satisfactory to Trelle, the directors, and to the public."

"Best District Seed Fair I Ever Saw" Said Dr. Aamodt, Alberta University

Seed Growers Exhibits in Point of Quality And Numbers Surpass All Previous Local Seed Fairs

The value of seed growers' associations and the influence of one good farmer of a group of farmers, in a community who are striving for better results was emphasized in an interview granted a representative of The Tribune by Dr. O. B. Aamodt, in charge of field husbandry and plant breeding at the University of Alberta, who was one of the judges at the Seed Fair held at Grande Prairie on Friday last.

"The type of seed growers' associations such as you have here," said Dr. Aamodt, "stimulates competition not only to the seed growers but also in the end. One of the ways in which the objective is attained by such organizations is to induce farmers to grow only the best varieties."

Providing small samples are taken from the loads at the elevators for seed and plots examined, the value of different varieties is determined. Major Strang's suggestion, for the past two years, said Dr. Aamodt, all across the Prairie provinces small samples are taken from the loads at the elevators for seed and plots examined.

Farmers who have pure varieties and insure seed are given the privilege of having it replaced. The value of having it replaced, Dr. Aamodt said, is that it is duplicated at some of the experimental farms in each province and when field days are held each farmer can see for himself the kind of stock he is growing on his farm. With this it is impossible to determine the actual results," said Dr. Aamodt. This work can be done by the seed growers.

THE APPEAL FOR ASSISTANCE FOR THE NEEDY

The Central Relief Committee is making an appeal for assistance for those in need. We are confident that the appeal will be successful.

Two years ago the Central Relief Committee was formed, composed of representatives from the churches, Women's Institutes and other organizations. The committee has been successful in its work.

With the continuation of the depression, distress on the main on being more and more severe.

We are approaching Christmas and are again reminded of the need of the poor. Let us reflect His spirit and life by seeing to it that no one in our community will go without the things to live. In a word, let us make Christmas a living, vital thing.

THE BARRING OF THE WHISTLE KING FROM THE INTERNATIONAL

Regret is expressed on every side at the ruling of those in charge of the Chicago International which has barred those who have won three championships from showing for three years.

This ruling especially hits the Peace River, as it shuts out the Whist King, a man who has won three championships and has done more for this country than any other man.

It is gratifying to know that the Grande Prairie Board of Trade is taking the matter up with the directors of the Chicago International and Grain Show to see if it is not possible to work around the ruling.

We are informed that similar rulings as that made by the International directors have been made with regard to district, state and national exhibitions. The reason for this is to encourage new and younger exhibitors.

However, as The Tribune sees it, a world's fair is in a class by itself and the moment such a world's fair is held it is to be a world's fair.

It is to be hoped that the Board of Trade will be successful in inducing the directors of the International to see the whole question in this light.

In taking up this position, The Tribune does not dispute the right of those in charge of the exhibition to make any other fair organization to make any laws they see fit which they deem to be the best interest of the exhibition.

WHY NOT OPEN UP THE ROADS

It has been suggested by several prominent local business men that the roads should be opened. This suggestion is being taken up with the various boards of trade which represent the business in the main the business men of every town and village in the Grande Prairie district.

There has been a heavy fall of snow and as it looks now this snow and more that is bound to follow will be with us for the entire winter. The roads are blocked for our traffic and will remain that way unless methods are used to open them.

It is understood that the rotary plows used the last two years on the routes in Columbia have not been used this year. It is suggested that these be rented or purchased and used along the highway in this district. From Hythe to the Peace River, it is estimated that the snowplow can be operated for one dollar a mile or thereabouts.

In view of the fact that the rotary plow has proven a most practical means in combating the snow, it seems utterly foolish to think that the whole of the Peace River should be most thickly staked in the Peace River, but on top of that the ladies also were concerned for the balance of the winter, resulting in business stagnation.

The Tribune quite agrees that the Board of Trade are the proper body to take this matter up and if arrangements can be made to be responsible for the machine.

It is to be hoped that action will be taken at once.

KEEPING THE NAME "PEACE RIVER" BEFORE THE WORLD

For any one section to win a world's championship is a great feat to be proud of, but to win three championships is a feat of a different order. This is the nature of an achievement.

This is exactly what was accomplished by the Grande Prairie Fair exhibitors at the recent world's fair held at Chicago.

Treble captured the championship in wheat; Haum of the Goodfear, Dainty exhibitor, and Bob Anderson the thimble seed.

Housing Policy and Town Planning in Soviet Union

The following is second in a series of articles of world-wide importance translated from Esperanto by members of the G.P.R.B. This article has been received direct from the International Labor Committee of the League of Nations, Geneva, where they were compiled on the request of the Grande Prairie Board of Trade.

Along with progressive realization of the Five Year plan and growing industrialization of the Soviet Union, the housing problem has become more and more serious. It is known that before the war the housing situation in the Soviet Union was very bad. The new government nationalized the housing, but a noticeable improvement of these conditions has not yet been achieved.

On the contrary, the after-revolution housing situation in the Soviet Union is very bad. The housing situation in the Soviet Union is very bad. The housing situation in the Soviet Union is very bad.

The new speech of the housing policy only began to solve the housing problem. The housing situation in the Soviet Union is very bad. The housing situation in the Soviet Union is very bad.

Formerly they more or less satisfied themselves by equal distribution of the inhabitable space in the state buildings. They then aimed to build new houses by the method, but without any general plan or system. The lack of lodgings was already a social danger in those days.

The fact that 20 per cent of all town workers in 1921 lived in hovels or in falling apart in 1921 gives one an idea of the real situation in those days. The statistics for the year 1921 show that the population of Moscow was very typical for the whole country. In 1921 the population of Moscow was 1,100,000.

I only heard one man, and he was a very old man, the hard times and the way he handled the house. The housing situation in the Soviet Union is very bad. The housing situation in the Soviet Union is very bad.

There isn't anything like a game of cards or any other good for the soul. The housing situation in the Soviet Union is very bad. The housing situation in the Soviet Union is very bad.

millions of rubles, and those for the construction of a large electric factory at the Dnieper River, along with the construction of the new city of Tobolsk 25,000 rubles at approximately 500 million of rubles, out of which 225 millions will be spent until 1933.

The price calculation for the new city of Leningrad for 1931 states 125 millions of rubles. They calculated with the increase of the population at 100,000 inhabitants during two years (from 200,000 at the beginning of the year 1929 to 300,000 at the beginning of 1932), and with the total cost of 700 to 800 millions of rubles.

They estimated the costs for the new city at 280 millions of rubles. It is necessary to underline that the whole scheme of these cities also aims to help the construction and collectivization of the everyday life.

About the detailed realization of these plans they have little to say. Partly they always yet more or less plan to build new houses, but the urgency of the lack of lodgings, they also order, sometimes, that the dwellers themselves finance as much as possible the construction, especially by organizing into "building co-operatives". In several districts, especially in Moscow, Leningrad, Dnepropetrovsk, and others, the plan is to build new houses according to the plans of the socialist city construction.

They will have more details about the progress of these works for the year 1932. The plan of the International Congress for modern architecture, which just took place in Moscow, is also mentioned.

win and winners never quit. He stressed the value of character as above everything else.

Crabben McFarlane was not present to receive the medal given by the Royal Bank of Canada. The medal was given to the highest standing in the district.

He was present by his subject, "The Origin of Cereals and Their Development." Dr. Amos, who was the speaker, said that the evening, held the undivided attention of his audience. He traced the history of the grain of cereals and demonstrated what had been accomplished in plant breeding.

Dr. Amos at the outset of his address observed that he knew of no part of the province where there was the same concentration on seed growing as here.

He stated that the University was not growing itself seed to make money, but to assist the growers in a small way, only two bushels being given to each applicant.

House environment and church interiors were described as the best possible training for the young. He referred to the interest taken in the seed growers as a most stimulating factor.

It was essential to keep these things in mind.

Dr. Amos then gave an interesting historical review of the background of cereals. He pointed out that the cereals were cultivated in the same way for centuries, but in the last 500 years, wheat 500 B.C., and rye about 100 B.C. Date, he said, was of recent origin.

Continuing, the speaker said that Palestine seemed to be the place where wheat was grown. The cereals, he added, have been found in the same place for centuries. The cereals estimated to be 3000 years old which were almost identical with our bullock barley of today.

Barley, said Dr. Amos, was the chief food of the ancient people. The cereals, he added, have been found in the same place for centuries. The cereals estimated to be 3000 years old which were almost identical with our bullock barley of today.

Referring to the advance being made in plant breeding in Russia, Dr. Amos said that that country was just as radical in this regard as it is politically.

The speaker said that there were three methods employed in plant breeding:

First, by the study of the ancient varieties and which had been found in different places through the ages. Second, by crossing some of these varieties it was possible to get a better variety than any one has today.

The second method, the genetic method, was the study of the genes of the germ plasma in uniting to form new varieties.

Third, the union of species from different countries to form new varieties.

An area east of Palestine was termed the plant breeder's great hunting ground. The speaker said that it was a singular thing that all the varieties taken from the tomb of the ancient Egyptians in the adjacent country, which proved that the plants were of the power of adaptation were able to withstand droughts, etc.

Dr. Amos warned his hearers against buying King Tut and other poor varieties offered by high-powered dealers.

through the crossing of suitable varieties, which would keep them in environment with modern methods of cultivation, he said.

The speaker then displayed several miniature leaves of bread to demonstrate the results obtained by the certain wheat. The loaf made from the high protein wheat, such as grown in western Canada, was the best. The next best was that made by blending hard and soft wheat. The loaf made from soft wheat only was a poor thing.

Except the exception of part of Russia, western Canada has the best environment to produce a high class wheat, said the speaker, who in closing paid a high tribute to the Grande Prairie Board of Trade in doing fundamental work in helping the farmers to get results.

Mr. Hunter thanked the ladies for the wonderful banquet, Mr. Galloway for his assistance, Mr. Hoffman and Mr. Hoffman for the splendid music and Mr. Pickard for his vocal solo.

WORLD NEWS IN PICTURES AND ITEMS IN GENERAL

IN MEMORY OF COUNTLESS FAITHFUL SERVANTS

Frances, Countess of Warwick, is shown in the above picture opening the new Animals War Memorial Dispensary in London. This memorial, dedicated to 48,115 horses, mules, camels and bullocks, and many hundreds of dogs, carrier pigeons, and other creatures on the various front during the Great War, was designed by F. Brooks Hinch, and is equipped to look after sick and injured animals at all hours of the day or night.

MEMORIAL TO AVIATORS UNVEILED IN POLAND

Above is a picture of the striking monument erected in Warsaw, Poland, to commemorate the 200 Polish aviators killed on active service in the Great War. The monument is a striking piece of sculpture by Professor Edward Wittig. The photograph was taken at the moment of the unveiling.

JOHN G. WENDEL

DERBY-HATTED BUST ENLIVEN'S WENDEL WILL BATTLE

The surrogate's court at New York, where the hearing into the claim of T. P. Morris that he is the son of John G. Wendel and heir to the vast estate left by the late Ella Wendel, is in progress, was the scene of a remarkable demonstration when a bronze bust of Wendel was introduced as evidence. The bust, derby-hatted, mustached and bespectacled, was placed beside Morris in court and the sculptor, by removing the facial adornments on the bronze figure, endeavored to show the remarkable likeness that exists between the face of his creation and that of Morris. Questioned, the sculptor asserted that he had never met Morris until he saw his in court. General of Australia military forces in the Great War, who is visiting the principal Canadian cities on route to Vancouver.

SIT IN PARLEY

The British Government is so anxious that the Indian Round Table Conference be successful that several prominent non-government statesmen have been invited to attend the parley. Top and bottom, Earl Winterton and the Marquess of Lichfield, both non-government delegates.

NEW STAMP ISSUE BEARS PROFILE OF KING ENGRAVED IN MEDALLION STYLE

Ottawa, Ont.—A new stamp issue, in denominations of one, two, three and eight cents, was placed on sale by the post office department on December 1st.

The new issue bears the profile of the King, engraved in medallion style, and is similar in design to the 3-cent stamp issued to commemorate the Imperial Economic Conference.

At the same time a new 15-cent stamp will be issued replacing the current 12-cent stamp that bears the view of the Quebec capital. The design of the new stamp will be the same as the 15-cent issue, but its color will be violet.

RELIEF ON MORTGAGE PAYMENTS IS REQUESTED

OTTAWA, Ont.—Efforts to free the mortgage borrowers for one year from mortgage interest and to persuade the mortgage companies to reduce interest rates by one per cent, were put forward last week by western provincial treasurers in an interview with officials of these companies.

The interview, it is understood, took place at Toronto, and the reply given by the companies is not known here. It is understood, however, that the companies pointed out that few if any foreclosures are being sought for arrears of interest, and that the companies are dealing generously with farmers' defaults on the prairie.

NEW BACON POLICY WILL NO DOUBT BENEFIT CANADA

Toronto, Ont.—"Canada will benefit automatically in the new policy by reason of the 280,000,000 pounds of bacon per year," declared J. R. McLean, of Canada Packers, Limited, in commenting on Great Britain's policy with regard to bacon restrictions which are now in effect.

"Her market will now be more open than it ever is to receive this Canadian bacon, which will take care of about 50,000 hogs a week," he said. Great Britain has started cutting down on her imports of bacon from foreign countries. She is doing this essentially as a preliminary to building up her production.

MAY DEMAND PROVINCIAL ELECTION IN ONTARIO

Toronto, Ont.—A demand for a provincial election next summer will be made immediately after the opening of the Ontario legislature in February by H. C. Nixon, Progressive Leader, who was in Toronto.

He declared he would introduce an amendment to the moving and seconding of the adoption of the Speech from the Throne demanding the business of the House be concluded with reasonable speed and an election called for June next.

Many mine strikes have been reported in Scotland this year.

AUSTRALIAN CLERIC

Rev. Albert T. Holden, C.B.E., President of the Methodist General Conference of Australia and Chaplain-General of Australia military forces in the Great War, who is visiting the principal Canadian cities on route to Vancouver.

ALBERTA DEFICIT IS OVER FIVE MILLION DOLLARS

A deficit of \$5,153,050 in Alberta provincial finances for the fiscal year ended March 31, 1932, is shown in public accounts released by Hon. H. O. Hall, provincial treasurer. This compares with a deficit of \$2,000,081 for the previous fiscal year, 1930-31. Revenue for the year, which had been estimated at \$18,441,437 actually totaled \$13,092,439, a shrinkage of nearly five millions, expenditures were \$18,645,489, but were cut to \$13,495,437.

SEES BETTER TIMES

Toronto, Ont.—President Frank A. Day's address the annual meeting of the shareholders of the Imperial Bank of Canada here today, there is a greater feeling of optimism throughout the country than there has been for two years that opportunities are offered for developing business due to the imperial economic conference, and that further stabilization may be expected from the coming world economic conference.

OIL FROM OKLAHOMA

Seminole, Okla.—A trainload of 40 cars of crude oil will leave here for the Imperial Oil Company, Regina, Sask. The train will provide 120 working days for railway employees in Canada and the United States. The railroad men call it the "King George Special." It is the first trainload of Seminole crude oil to be shipped to Canada in months. There used to be three a week.

NO JOBLESS IN JERUSALEM

New York.—Three Jewish leaders from Palestine, arrived on the "Bergaria" on their way to a convention of the American Jewish organization in Buffalo, boasted that their city is the one place in the world that has not one unemployed man.

One of them, Aram Hiss-Nun, said the Jewish population in Jerusalem has grown from 50,000 in 1917 to 220,000 today.

WOULD IMPROVE BACON HOGS

Toronto, Ont.—Advocating a higher quality of bacon hog suitable to the demand of the Great Britain consumer, Hon. Robt. Weir, Dominion Minister of Agriculture, addressed several hundred farmers and exhibitors at the Royal Winter Fair luncheon recently.

"What does your rheumatism say?"
"Very overcast, clearing a little about midday, sharp showers, storm towards evening."
—Der Lustige Sachse.

WEDDING BELLS

COMMITTEE APPOINTED TO FIX REPRESENTATION IN PARLIAMENT

The machinery to fix representation in the House of Commons for the next ten years has been set in motion and a committee has been formed to define constituency boundaries and distribute representation. Above are five members of the committee, as follows, left to right: J. R. MacNeil, Hon. Charles Stewart, A. A. Hays, Hon. J. C. Elliot, and Hon. R. J. Manion.

GOVERNMENT MAY REMOVE SOME DUMPING DUTIES

The Canadian Government is giving "serious consideration" to removal of exchange dumping duties from certain imports from Great Britain. This was announced in the House of Commons by Hon. H. H. Stevens, Minister of Trade and Commerce.

Canada promised "sympathetic consideration" under the Anglo-Canadian treaty to removal of currency dumping duties from British imports.

A POCKET SHEEP-SHEARER

A small machine for shearing sheep weighing only five pounds, has been invented for use with the lighting battery of a motor car.

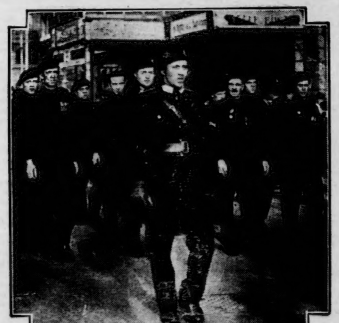

Many modern shepherds in British go to and fro by car, and with such a shearer—attached by a flexible wire to the dashboard—they can remove 12 pounds of fleeces in five minutes.

REDUCING LIQUOR PRICES

Victoria, B.C.—Reductions in liquor prices on all save continental European brands, ranging from 10 cents to 60 cents a bottle, went into effect in British Columbia, December 1. Hon. H. H. Pooley, attorney-general, announced. Government approval has been given the new price list prepared by the liquor control board.

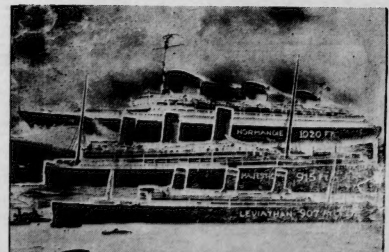

Mrs. Emma Sheehey, 42-year-old mother of four children, is shown with her husband, their farmhouse at Glensheen, Conn., after the woman had led troopers to a nearby swamp and showed them the body of a seven-week-old baby, which she confessed having killed. Lack of money was the chief cause of the killing, according to police reports.

BLACK SHIRTS PARADE IN IRELAND

Here are members of the Irish Fascist on parade in Dublin. They were marching to the Cathedral to take part in the Armistice Day services. Like the Italian Fascist, these men wear the black shirts and berets.

WORLD'S LARGEST LINER LAUNCHED - PROUD DAY FOR FRANCE THE LAST WORD IN LUXURY

The world's largest liner, the 16,000-ton Normandy, which has been built with the assistance of the French government, was ceremonially launched in the presence of the President of the Republic, M. Lebrun. The vessel was named by Madame Lebrun, Hugue and enthusiastic crowds cheered as the great vessel moved slowly down the slipway into the shallow waters of the river. So great was her draught that only a very small space was left between her keel and the bed of the river. She was afterwards taken to the Grand Penhoel dock, where she will be fitted, an operation which will last 18 months. The huge size of the Normandy has necessitated the building of a new entrance to the port of St. Nazaire, modifications at Havre, and the building of a new landing stage at New York long enough to accommodate her.

The Normandy is being built for the American traffic by the Compagnie Generale Transatlantique and will, it is hoped, be ready for service by 1934. She is destined for a speed of thirty knots and it is intended to provide a five-day schedule for the voyage from Havre to New York, via Plymouth. The ship is to be fitted in the most luxurious manner. In addition to sports' decks, swimming pools, reading rooms and the like, a vast garden is being laid out on the "sun deck." There will be room for 2,175 passengers and a crew of 1,200. Not only has France now the largest liner in the world, but she has also a fleet of speed. The Bremen in March of this year crossed from Cherbourg to the American highspeed in four days, seventeen hours and ten minutes.

"QUALITY AND LOW PRICES"
Grande Prairie TWO STORES Sexsmith

KID OSBORNE WILL MEET BERG INSTEAD OF LAWRIE IN FEATURE BOUT, CAPITOL (Continued from Page One)

Fight will be for the light-heavyweight
championship of the Peace River,
which Berg has held for sometime.
Osborne is possibly the best man at
his weight in the north country. He
is every inch a fighter and a clever
boxer. This bout is scheduled to go
ten rounds.

Wrestling Card
There will be four wrestling tins in
the wrestling section, which directly
follows the boxing bouts.
It was not generally known that
"Patsy" O'Brien, who fought Berg
twice for the light-heavyweight cham-
pionship of the north, was also a
wrestler. It now comes out that the
same "Patsy" has had plenty of ex-
perience on the mat. He and Alex

Babak, who has been a headliner on
the wrestling tins in this part of the
country, will appear in a bout for
the championship of the Peace River,
Albionians Wildcat (colored) and
Pete Bestling of Calgary, 140 pounds
will at the wrestling end of the pro-
gram arm to a good start. Both are
experienced in the game.

The heavy-weight championship will
be at stake when Frank Teas of Sex-
smith and "Bud" Ward of Wembley
meet. Teas defeated Ward a year
ago, but since then Ward has im-
proved greatly and there are many
who believe that Ward will win.
Teas will weigh 175 and Ward 185.
Joe Barnum, who made such a
credible showing at Sexsmith
against Teas, is matched with Earl
Powers of Blue River, who has proven
that he is conversant with the fine
points of the game.
Harris Church will be the third man
in the ring and Archie Boyce will be

the official announcer. "Les" Cook,
man of the Silver Band has been sug-
gested for the occasion.
Australian rules will govern.
Ring-side seat plan is on view at the
Grande Prairie Hotel and reserved and
rush can be seen at both the local
arena and a good start. Both are
experienced in the game.

A dance will follow, at which the
Whoppe Boys orchestra will be in
attendance.

THREE HOCKEY TEAMS IN BLOCK

Jack Fynn and Eddie Patterson of
Havon Creek are visitors to Grande
Prairie. Jack in conversation with
The Tribune man stated that the
Block expected to have three hockey
teams this winter—Pouce Coupe,
Edna, and Dawson Creek.
Patterson is still suffering from a
broken thumb, sustained in his recent
fight with Smith of Father. Pat-
erson is also a hockey player.

DAWSON CREEK GENERAL HOSPITAL
The hospital is located on a three-story and has full basement.
It is finished outside with stucco and inside with plaster board.
Furnished with the most up-to-date equipment available. Sewerage,
heat and water system installed by Lockhart & Hild. Has a six-stall
fully automatic Latrine electric light plant, Victor X-ray. Operating room
is equipped with a spark light and a thermostat. There are 24 beds.
(Courtesy of Peace River Block News)

West Australia Withholds Wheat From Market

CALGARY, Dec. 6.—Farmers of
West Australia, most westerly state
of the southern hemisphere dominion,
Monday were withholding their current
crop of wheat from markets of the
world, according to a cable from
President Boyce of the Wheat Growers
Union of West Australia to the Alberta
Wheat Pool, which reads: "Wheat
Growers Union of West Australia not
delivering wheat this harvest. Holdout
general."

**JAP DESTROYER CAPSIZED BY
MONSOON—CREW OF 104 LOST**

TOKIO, Dec. 6.—The trim Japanese
destroyer Sawaraba drifted upside
down in the east China Sea Tuesday,
with 104 of her crew probably dead.
She was a victim of the treacherous
monsoon that blows off the coast of
Asia.

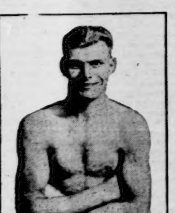

THE HAPPY BACHELOR

What a joy and happy life
And free from matrimonial strife
Is the chap who paddles life's canoe
alone!
Always free from family cares,
If minus buttons, some clothes he
wears—
It's a matter entirely his own.

Though on frugal fare he may subsist,
There is no one to insist
That he stroke the furnace and her
coffee bring.
Just to please a better half
And avoid her wailing wrath
Should he forget some other trifling
thing.

That is the life for me!
So untrammelled and so free,
And no one to dictate what I wear,
Be it sweater, tuxedo or frock,
Perhaps some holes in my best socks—
It is solitary comfort, I declare.

But when all is said and done,
I wonder if my point I've won
And what change a loving pal would
bring.
Who would meet me with a kiss,
What a dream of real bliss!
Perhaps the curtain on my bachelor
dreams I'd ring. —Rusticus

KID OSBORNE
who meets Otto Berg in the main bout
on Frank Donald's boxing and wrestling
card at the Capitol on Dec. 16.

"SCOTTY" COWAN
The "Mighty Al-on" who fights Ed.
Green in Joe Grande Prairie on
December 16

THE NEWEST SHOOTING CLUB

A shooting club for criminals where
they could practice firing at cardboard
figures of policemen was discovered by
authorities at Bunsen Area with the
arrest of one of the band. A letter
from the woman proprietor of the club,
found in the captured man's posses-
sion, revealed the location of the
range.

On raiding the house the police
found a 90 ft. underground shooting

range and three gunners anxiously
practicing their marksmanship. The
range was fitted with soundproof
building and fitted with the latest ap-
paratus. Blue cardboard figures of
policemen, both moving and stationary
formed the targets. The scores of the
shooter were kept in a card index.
